

Immuni-Tea

Immune Support Tea Infusion

Imperial **Immuni-Tea Infusion™** is a refreshing nutrient-enhanced tea infusion with a robust blend of essential nutrients proven to modulate the immune system and effectively defend against infectious viruses and bacteria, according to the National Institutes of Health.

ResistAid® Larch Arabinogalactan is a natural biopolymer extracted from larch conifer trees consisting of bioactive flavonoids, which is proven in clinical study to significantly reduce the incidence of respiratory infections¹ and decrease by 23% the incidence of common colds².

- Immune Support from ResistAid® and Vitamins C, B6, D3
- No Added Sugar or Artificial Sweeteners
- No Artificial Colors or Flavors

12 oz. Serving Contains:

- **1000 mg ResistAid™**
Increases immune cell proliferation, monocytes and white blood cells, plus modulates properdin levels so the immune system is prepared to challenge invading agents.*
- **150% DV Vitamin C**
Limits damaging effects of free radicals as an antioxidant, regenerates other antioxidants in the body and modulates immune system response.*
- **50% DV Vitamin B6**
Promotes lymphocyte and interleukin-2 production, and hemoglobin formation to support immune health.*
- **50% DV Vitamin D3**
Reduces inflammation, plus modulates cell growth and immune function to fight off invading bacteria and viruses.*
